

Innovation from Bob, our head of finishing, and Jose, a master burnisher in our Port Washington, Wisconsin factory. Their artisan skill and expertise came together to create two exciting new colors for Allen Edmonds: Bob's

Chili and Jose's Oxblood. By combining several unique dyes and a pinch or two of secret sauce, Bob was able to produce distinctly powerful highs and lows in the Chili color range for a style that has just the right amount of color, depth, and kick. Jose created the Oxblood finish by carefully burnishing world-class cherry calfskin, creating dramatic contrasting high and low accents. Now available in our Timeless Classics and other select footwear, Bob's Chili and Jose's Oxblood will be the hottest shoes this fall when the weather turns cool.
